NWTALA 25th Anniversary

In the NWT, the profession of landscape architecture has been represented by the NWT Association of Landscape Architects since 1991. Landscape architects from across Canada have influenced some of the spaces where residents of Yellowknife **live, work** and **play**. These spaces are a source of identity, enjoyment and inspiration, and make the city a more healthy and livable place. These are just a few examples of **Yellowknife** projects conceived by landscape architects.

A HEALTHY CITY TO LIVE. WORK. PLAY.
